

Applied Weather Modification - Homework 5: Questions

Introduction

First review the Droplet Growth, Ice Crystal Growth, and Basic Clouds presentations. Create 1-2 multi-choose questions from each presentation that you believe would be a possible exam question. Identify with Headers, which lecture the questions based on. Create a total of five questions and provide possible answers, with the first answer provided being the correct answer to the question. Ensure that each the question is in the form of a complete questions. Each question should be on a different topic and not just rewording of the same question.

Droplet Growth Presentation

Questions 1:

Questions 2:

Ice Crystal Growth

Questions 3:

Question 4:

Basic Clouds

Question 5:
