

Applied Weather Modification - Homework 6: MedEd-Convection

Instructions

First, review the “Principles of Convection I: Buoyancy and CAPE” module by opening <https://www.meted.ucar.edu/mesoprim/cape/index.htm> and clicking the Principles of Convection I: Buoyancy and CAPE title on the top/left. To access the site you may have to use your UND email to create an account, at least to take the quiz. Take the quiz. Upon completion of the quiz, you should receive an email with you results. Upload a screen shot or pdf file (print out) of your results. You may take the quiz more than once. Assignment point will be based on your quiz results. For example,

6/10 Points for Quiz Result < 40 %

10/10 Points for Quiz Result > 90 %
