

Applied Weather Modification - Homework 9: Questions 4

Introduction

First review 1.) Dry Ice as Seeding Agent, 2.) Seeding Agent Dispersal, 3.) Seeding Equipment and Methods, and 4.) Radar for Weather Modification presentations. Create multi-choice questions from each presentation that you believe would be a possible exam question. Place question under the Lecture Headers. Create a total of **ten questions** and provide **4 possible answers** to each question. The first answer provided should be the correct answer to the question. No true/false questions. Ensure that each the question is in the form of a complete questions. Questions should be on a different topic and not simply rephrasing of another question

1.) Dry Ice as Seeding Agent
