## **Snowfall Increase (Orographic Clouds)**

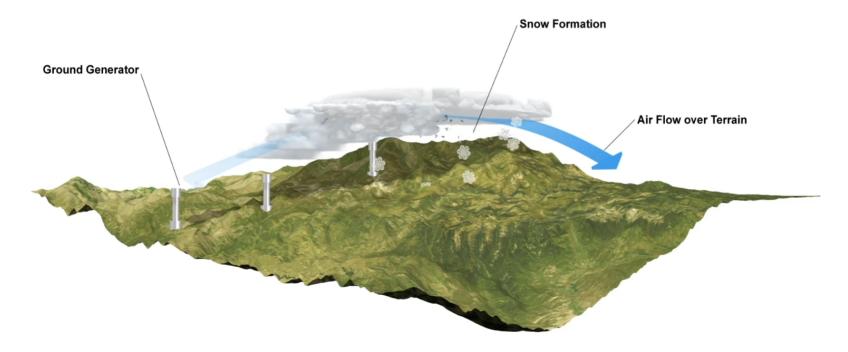

### Winter Cloud Seeding with Silver Iodide

## **Simulation of Winter-time Cloud Seeding**

#### http://aerosol.atmos.und.edu/AtSc252\_Spring2023/Presentations/m\_sim.mp4

Simulation of mountain with various cloud seeding locations

### **DOW Radar Observation of Aircraft Seeding**

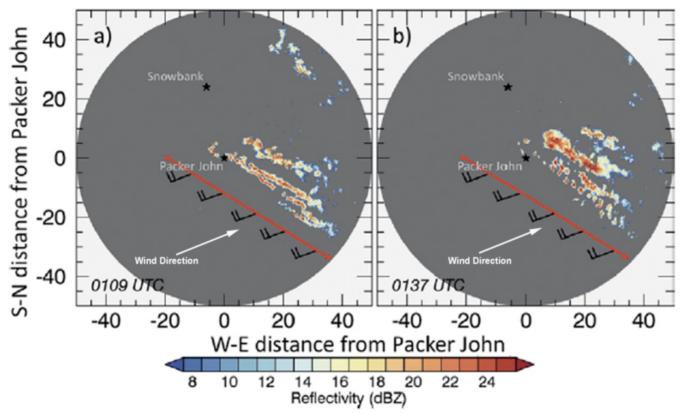

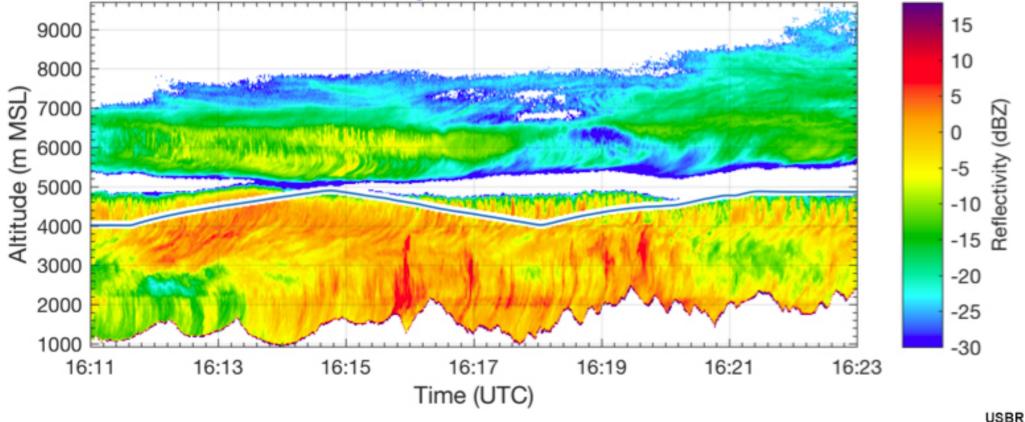

FIG. 12. PPI scans (0.99° elevation angle) at (left) 0109 and (right) 0137 UTC from the Packer John DOW radar. The red line denotes the track of the seed-ing aircraft. The track was repeated eight times between 0003 and 0129 UTC. The wind barbs indicate mean flight-level winds (kt; 1 kt  $\approx$  0.5144 m s<sup>-1</sup>).

### WCR Radar Observation of Aircraft Seeding

Wyoming Cloud Radar (WCR) Reflectivity from March 9, 2017

# **Snowfall Augmentation (MedEd)**
